

RECORDS GO GLIMMERING.

On Decatur's Fast Track Two More Captured by the Cleveland Team.

A large crowd assembled at the Trotting Association track yesterday afternoon to witness the trials of speed by the Cleveland Racing team. After several warming up trials the riders got down to business. Dr. A. I. Brown paced by L. C. Johnson and L. B. Rigby went after the flying start paced 1/4 mile record, held by John S. Johnson. The record was 24.5 seconds; it was lowered yesterday by Dr. A. I. Brown to 23.15 seconds. Dr. Brown during the recent race met here lowered the 1/4 in competition record and that gentleman now holds two quarter mile records over Decatur's track. The second reduction made was in the record for one-third mile un-paced flying start for tandems. The record which was held by a Pacific coast team was 34.35 seconds. O. P. Bernhardt and R. F. Goetz lowered this record two seconds, making it in 32.35. Goetz and Bernhardt yesterday in practice work rode a quarter of a mile on a tandem in 24.25.

WILL RIDE EVERY DAY.
Manager Hoyt announced last evening that twice each day, at 10 a. m. and 2 p. m., the riders would be at the track. The morning will be for practice, while during the afternoon they will go for records. He also extends a cordial invitation to all wheelmen and enthusiasts to visit their training quarters at the track and watch their work.

NOTES.
The team will work on Sunday, both morning and afternoon, and it is expected that a large crowd of people will be present to see the trials.

The riders were much elated last evening over the success achieved yesterday at the track, but they are not in the least satisfied, but each afternoon will attempt to win laurels that will stand the test of time and ambitious flyers.

The riders are delighted with the Decatur track, and the first of the week they will probably make attempts at smashing the two mile and under records.

The official judges at the track yesterday were Judge Vail, Frank Faries and Archie F. Wilson; the official timers were George Post, George Hart, Otto E. Curtis and F. B. Mueller.

L. D. Cabanne was well enough this morning to ride several miles at the track, and this afternoon it is his intention to lower the two mile record. Success to him.

A deaf mute walked into a bicycle repair shop and picked up a hub and spoke.

The trials this afternoon will be Cabanne's attempt to lower Tyler's record for two miles, flying start, with pace-makers. Tyler's record is 4:04, and Cabanne is confident of lowering it below four minutes. The other trial will be to lower the record of one-half a mile, flying start of 52 flat. Dr. Brown will go after this time.

J. S. Johnson's 135 2.5 mile will not be accepted by the L. A. W. Racing Board, inasmuch as the performance was made on the road. The L. A. W. does not countenance road racing. A claim, however, will probably be presented by Johnson to the Century Road Club of America for their acceptance as a road record. A tandem team in England made a mile in 1:45 this fall, which does not stand as a record.

The Chief Chemist of the U. S. Department of Agriculture, as head of the World's Fair Jury, conferred the highest award on Dr. Price's Baking Powder.

Delightful Entertainment.

A party of young gentlemen gave a most enjoyable party last evening at Leonard Hall to their lady friends. The room was appropriately decorated and the opera house orchestra furnished most delightful music throughout the evening. Those present were Misses Alice Bering, Irene Armstrong, Gussie Gorin, Nell Schroeder, Lola Montgomery, Grace and Corrine Shellabarger, Louise Boyd, Annie Rainey, Poey Dill, of Belleville, Miss Hughes, Belleville, Belle Vennigerholz, Belle Burrows, Margaret Roberts, Mollie Tuttle, Dr. and Mrs. J. D. Moore, and Messrs. Kyle Bohon, Ed. Powers, Henry Crowell, Dr. Carlton, Will Armstrong, Frank Evans, Guy Parke, Lute Shellabarger, Linn Blackstone, Will McBride, Bob Hays, Thad Schroeder, Paul Smith, Charles Hubbard, John Maus and Lester Wymond. The affair was in honor of Miss Emma Hughes of Belleville, who is now the guest of Mrs. J. B. Dingus.

Dr. Weidner's Lecture.

N. W. Woodford, secretary of the Y. M. C. A. says: "I have twice heard this lecture of Prof. Weidner's, and consider it one of the most remarkable on this subject to which I have ever listened. Three years ago Dr. Weidner conducted the Bible studies at the Y. M. C. A. state convention at Jacksonville, Ill., and won the hearts of hundreds of young men in the state. All persons interested in Bible study should hear him."

A DIABOLICAL CRIME.

A Laborers' Boarding House Containing Fifty Inmates

BLOWN INTO FRAGMENTS BY DYNAMITE

Three Persons Killed Outright and a Large Number Seriously Wounded--The Survivors Abandon the Sufferers to Their Fate.

WILKESBARRE, Pa., Oct. 29.--A dastardly outrage was perpetrated at 5 a. m. yesterday wherein it was premeditated by the scoundrels to sacrifice fifty or sixty lives by sending them into eternity with a force of dynamite. The motive was undoubtedly robbery and it resulted in the instant death of three Hungarians, while a large number were injured, eight of whom are in a serious condition. The dead are: Frank Novako, aged 33; single.
Mike Collett, aged 40; wife and four children in Hungary.
George Sliotzski, aged 38; wife and two children in Bohemia.

Among the injured are: John Collett, brother of Mike, aged 30, married, back broken, will die. Mike Koshitz, aged 27, seriously injured around head and face. Kasha Grattarick, aged 19, leg broken and other injuries. Mike Urtiz, aged 30, pelvis fractured and skull crushed. Blazak Croll, aged 38 years, arm broken, side hurt. Fahrkotzsk, aged 33, breast torn and shoulder broken. Anthony Tucklich, aged 32, crushed in back and breast; considered fatal. Urtiz Misko, aged 25, injured internally, cannot recover.

McDonald & Sayre, railroad contractors are building a second track of seven miles on the Lehigh Valley cut-off, and at a point one mile from Fairview in the wilds of Wilkesbarre mountain, a Hungarian camp was located which was presided over by Mike Urklowitz and wife.

The camp consisted of a rough building thirty feet square constructed in the midst of a thicket of scrub oaks beside the track.

During the night as is always the custom, three of the sixty Hungarians, men and women, sat up on watch and were whiling away the time playing cards.

Some time during the night a party of desperadoes secured a battery and brought it to the railroad track in front of the camp and connected it with a wire completing a circuit to each corner of the camping house. A tool chest standing near by was broken open from which were taken a number of dynamite sticks which were distributed beneath the building.

The circuit completed, it was but a moment's work to turn on the battery setting off the dynamite. However, in the haste with which the miscreants worked they made a faulty connection at the battery, and when it was turned on but one, and certainly not more than two of the dynamite sticks exploded.

Frank Novako, one of the party playing cards on the first floor, was instantly killed, both legs being blown off at the knee.

The building totally collapsed, and was shattered into shivers excepting one-half of the roof, which sank in, partially covering the debris.

The two other men at the card table were scarcely injured at all, while the others killed and injured met their fate from the collapse of the building. Occurring as it did before daybreak, the condition of the unfortunate foreigners was deplorable, and in their frenzied condition they knew not which way to turn or how to act.

The force of the explosion was so great that the earth was torn up about the site of the camp, and their effects in the way of baggage, cooking utensils, etc., were scattered in every direction.

As is the custom of the Hungarians, those who were uninjured, at daybreak, commenced collecting their shattered goods and chattels, and by noon a large number of the men had prepared to take their departure, having no concern and paying no attention to their dead and injured countrymen.

The Lehigh valley Railroad Co. sent out a wrecking force, with physicians, detectives and the coroner. Upon its arrival the injured men were cared for by the physicians, placed on the train and brought to the hospital here, and the bodies of the dead were also brought here and prepared for burial. The detectives have arrested Mike Urklowitz, the boarding boss, as a witness. They profess to believe that he can give evidence that may lead to the detection of the men who committed the outrage.

COSTLY FLAMES.

A Half Million-Dollar Fire Visits East St. Louis--A Freight Warehouse and Two Hundred Cars Burned.

ST. LOUIS, Oct. 29.--At 11 o'clock last night fire started in the warehouse of the Bridge & Terminal railway in East St. Louis. The fire spread to the mass of freight cars on both sides of the warehouse and burned itself out for want of material. The scene of the fire was half a mile north of the Relay depot and in the center of a maze of tracks filled with cars. The warehouse, 750 feet long, was filled with hay, cotton and grain.

The local fire department and engines from this city hurried to the fire, but found no water, as there is not a plug within a fourth of a mile of the scene. Over 300 loaded and empty cars were burned. From the time the alarm was sounded freight engines and crews were busy hauling cars into safety. This alone prevented a much heavier loss. The estimates of the loss range from \$500,000 to \$750,000. The freight in the warehouse was mostly consigned to the Jacksonville & Southeastern railway. The cause of the fire is unknown.

A Diamond Worth a Million.

The most valuable diamond in the world to-day perhaps is the "White" or "Great Imperial" diamond found at the Kimberly (South Africa) mines five years ago. In the rough it weighed a fraction over three ounces troy, or exactly four hundred and fifty-seven and a half carats. It was pared down in cutting until it now weighs but one hundred and eighty grains. It has fifty-eight facets, and is held by a London syndicate at one million dollars.--St. Louis Republic.

Shaving the beard and hairs as a sign of mourning was common among almost all ancient nations, and is even now practiced in several parts of the world. Shaving the head was one of the signs of grief shown by Job when informed of the death of his sons and daughters. "Then Job arose, and rent his mantle, and shaved his head, and fell down upon the ground."

"Jesus, accept the praise," is by Charles Wesley. It is often used by all branches of Methodists at the close of the annual conferences. Two other hymns are also used on this occasion: "Blest be the dear, uniting love," and "And let our bodias part."

The German government has restored the embargo on American beef. This is another evidence of how the Democratic leaders are legislating in the interest of the American farmer.

Voting the Democratic ticket means voting away your opportunity for employment. That means destroying yourself as a consumer. That means a loss of trade all along the line and depression of business. That means an impairment of the farmer's market. This state of things has been called "the golden era."

Voting the Democratic ticket means voting your job away. When an employer, or any other person interested in the welfare of workingmen, tells the workingman this fact the Democratic campaigner, who is after their votes and not their welfare, howls that the workingman is threatened with discharge if he votes the Democratic ticket. A million and a half workingmen have already lost their jobs through the return of the Democratic party to power.

The workingmen were told in 1892 by the "tariff reform" campaigners that if the reformers got into power wages would be advanced and goods would be made cheaper. The workingmen have discovered that voting their jobs away to workingmen in Europe does not raise the wages of the man who is forced into idleness by such a result, and when a man is idle or is working at reduced wages it matters little to him what the price of goods are. His power to buy is gone.

The "scholar in politics" is afraid of the judgment of the people of Illinois, and instead of depending on ideas and reason he and Hopkins have flooded the close senatorial districts with a corruption fund in the hope of being able to corrupt voters. The American voters have lost too much labor and business through the return of the Democrats to power to be governed by "hoodlums." Such stuff will not repay them for the losses already sustained, and to continue that party in power for a few dollars would be like trading off a whole year's living for a ham. Voters, if these debauchers of elections offer you the money kick the man who offers it to you, or take it and then vote as you please.

The world's crop of wheat is about the same this year as it was in 1891 when the American farmer got 83 cents a bushel for it. This year, however, the United States has produced only 400,000,000 bushels of wheat as against 600,000,000 in 1891, yet in spite of these favorable conditions for a good price per bushel for wheat for the American crop, the farmer has to sell it for an average of about 45 cents a bushel. If the crop of corn and oats was as general as that of wheat, the Macon county farmer would not get over 15 cents a bushel for his oats and 20 cent. a bushel for his corn. In view of these facts the farmer had better do some thinking before he casts his ballot in favor of any more of this Democratic "golden era." The farmer, the laboring man and the merchant cannot afford to vote to diminish the consuming—the buying power of the people.

Labor's False Friends.

The hypocrisy of the claim of the Democratic party, through its leaders and campaigners, that it is the friend of labor, has again been exposed. This time by the discovery that the Democratic secretary of state has managed to render the proposed amendment to the constitution useless, in case the people ratify it at the polls. The proposed amendment which will be on all the ballots is as follows:

That the General Assembly shall have power to enact laws to control and regulate the contracts, conditions and relations existing or arising between corporations and their employees.

The constitution provides that when-

ever an amendment is proposed the proposed amendment shall be published in full at least three months preceding the election, and the statutes provide that such proposed amendments shall be published in full, by the secretary of state, in at least two newspapers at the seat of government, at least three months before the next election of the General Assembly, and the passage of said proposed amendment with notice prefixed thereto, that at such election said proposed amendment will be submitted to the electors of the state for adoption or rejection.

The present Democratic secretary of state not only did not publish the proposed amendment three months before election, on or before August 6, 1894, but published it in but one daily paper at the seat of government. The publication was made in the *Illinois State Journal* August 16, 1894, ten days after the expiration of the time fixed by law. This, it is clear, was not an oversight on the part of the secretary of state; but there is plain evidence, from which there is no escape, that it was a carefully laid plan to defeat the amendment. In addition to publishing it in the *Journal* ten days after the law required it to be published, it was published in the weekly *Register* August 16, or ten days too late.

An examination of the copy furnished these newspapers, shows that while it bore the date, August 1, 1894, the instructions of the secretary of state were to make the publication August 16, 1894, too late to comply with the constitution and the statutes, for the copy bears the mark of the advertising clerk, "Aug. 16, 1894." No newspaper would put such a mark on advertising copy without the direction of the party making the publication.

Here, then, the workingmen have another dose of "cold victrols" from the party that poses as the friend of labor, and shows again that all the interest its leaders have in the workingmen is to get their votes and these they propose to get by deception. Through the machinations of the Democratic state officers the proposed amendment to the constitution to empower the legislature to pass truck store and other laws, will not be worth the paper it is written on. Workingmen should take warning and drive the Democratic party out of power everywhere.

Vote for Connolly.

Maj. James A. Connolly, the Republican nominee for congress, is conceded by all to be splendidly equipped in every essential respect to make this district one of the best representatives it ever had in congress. As a valuable adjunct to his abilities his wide experience in public matters will make him a leader in congress, as soon as that body gets down to business, and the people of the district will be honored by their representative from the day he goes into congress until the day he goes out. In addition to this there is nothing of the fawning and disagreeable demagogue about him; he is as honest in regard to his political views as he is on other things and never dissembles nor stoops to deception to get votes and when he goes to congress he will not disgrace his people by assuming to favor measures, for the sake of deceiving the people of his district, which he knows cannot become laws and which he knows to be wrong. In other words he will be a leader, an educator instead of an "end man" playing upon the prejudices of the uninformed, or for the applause and cat calls of the gallery. The voters of this district will honor themselves by voting for James A. Connolly, a true American, who knows the needs of his country and will vote at all times in the interests of the United States, and all the people, no matter what foreign countries may say or think about it. The farmers, the laboring people, and the business men of this district will serve their own interests best by voting for Connolly.

Free Coal.

A morning paper says Mr. C. C. Leforge answered Major Connolly on free coal at Niantic. That's good, if Mr. Leforge did it. If that gentleman has shown that bringing 2,000,000 tons or any other amount of foreign coal into this country, that our own miners previously produced, will not displace that amount of coal and injure the miners and capital invested in mining, then he answered Connolly. If he failed to do this, which is certain, then he made no answer. The fact remains that a miner who votes for Springer votes money out of his own pocket and bread out of the mouths of the members of his family. Springer voted for free coal, and since the Democratic tariff bill has become a law coal is being shipped from West Virginia to Chicago in competition with the coal of Central Illinois. Nova Scotia is taking the former market in the east from the Virginia miners, and they in turn are seeking the former market of the western mines. West Virginia lump is being delivered F. O. B. in Chicago at \$3.30 a ton, and is being sold in competition with the product of our Illinois mines. This has seriously crippled many mines in Indiana and Illinois. These are facts which can be answered in but one way, namely: free coal injures the miners of the United States, and the miners of Illinois as much as the miners of any other state.

MUNICIPAL CLUB OF DECATUR.

Declaration of Principles.

We, the members of the Municipal Club of Decatur, inviting the co operation of all our fellow citizens, hereby declare and pledge ourselves to the enforcement of the following principles:

First—We, as citizens of Decatur, believe that our highest interests will be materially promoted by the absolute separation of municipal government from national and state politics.
Second—Realizing that respect for law is the bulwark of liberty, we demand a vigorous enforcement and enforcement of all our laws, and we pledge ourselves to nominate or endorse only such candidates as we believe to be in favor of such enforcement—honest and capable of properly administering the affairs of our municipal government.
Third—We advocate practical extension of the highest principles of civil service reform to our municipal department.
Fourth—It will be the special object of the Municipal Club of Decatur to make a thorough and scientific investigation of the correct principles of local self-government, especially as adapted to this municipality, and to collect and publish all appropriate information on the defects and needs of the city government. While the members of this club may be members of widely different national and state organizations, all will be united in common purpose of obtaining the best city government and the wisest expenditure of money, advancing the material growth of this municipality and of stimulating that spirit of progress in her citizens which will secure for them and descendants the largest measure of domestic comfort and commercial prosperity.

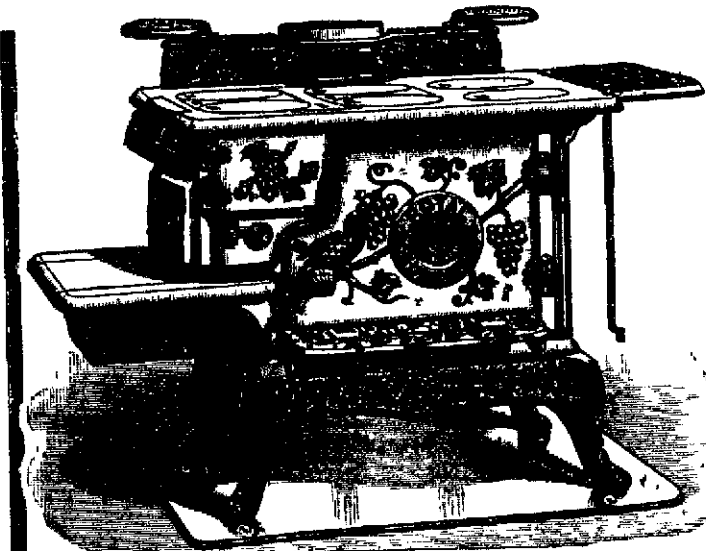

Being in hearty accord with the declaration of principles of the Municipal Club of Decatur, I hereby subscribe my name as a member thereof:

THREE MORE RECORDS.

Captured by the Cleveland Team Sunday at the Track.

Over five hundred people, including many ladies, went to the trotting association track on Sunday afternoon to witness the trials of speed by the fast riders of the Cleveland team. The team arrived at the track about 3 o'clock, and after several warming-up miles the riding commenced in dead earnest.

The first event was the matchless riding of F. B. Rigby and L. C. Johnson on a tandem. They went after Haggerty and Williams' record of 261.5 for one quarter, unpaced with flying start and reduced it to 23 flat.

The next event was L. B. Cabanne's act of breaking Otto Zeigler's record of 25 1/5 to 25 flat. The record was for one-quarter mile, flying start, unpaced.

O. P. Bernhardt and R. F. Goetz, who one day last week broke the record for one-third mile, unpaced, to 32 3/5, went against their own record yesterday and reduced it to 31 4/5.

Next J. Frank Farnes of this city, a Class A rider, rode a fast unpaced quarter of a mile. He covered the ground in 27 1/5, within 2 3/5 of a second of the world's record for that distance, Class A, and within 12 seconds of the world's record Class B. It was an excellent trial.

DO NOT COUNT.
The L. A. W., racing board do not sanction Sunday racing and hence the records made yesterday will not be accepted; at the same time the riders made the time above reported and the credit is as much due them as it is John S. Johnson when he rode his fast mile on a straightway course. Neither will be sanctioned by the L. A. W.

SATURDAY'S TRIALS.
Saturday afternoon L. D. Cabanne attempted to break the two-mile record, pace, flying start, 4:04 over the Decatur track, and failed. He did it in 4:13 4/5, going the first mile in 1:53. A. L. Brown failed to beat the half-mile, flying start, paced record, 52 2/5. He fell short one second.

THE MILE RECORD - 1:48 3/5.
Saturday at Waltham, Mass., under most favorable circumstances, Henry C. Tyler reduced Otto Zeigler's world's record for one mile, flying start, paced, of 1:50 flat to 1:48 3/5.

CAN NOT BE BANNISHED.
The supreme court of Minnesota has declared emphatically in favor of bicyclists. In a decision handed down Saturday they are given all the rights of the general thoroughfares granted to other vehicles. The test case was that of N. A. Thompson, whose horse ran away at the sight of a bicycle ridden by W. M. Dodge, the buggy of Mr. Thompson being demolished and Mr. Thompson injured. The latter brought suit for heavy damages, alleging that the bicyclist had no right in the road. Judge Cook says in his decision against Mr. Thompson:

"Bicycles are vehicles used now extensively for convenience, recreation, pleasure and business, and the riding of them upon the public highway in the ordinary manner as is now done is neither unlawful nor prohibited, and they cannot be banished because they are not ancient vehicles or used in the Garden of Eden by Adam and Eve. Because the plaintiff chooses to drive a horse hitched to a carriage does not give to him the right to dictate to others their mode of conveyance upon a public highway where the rights of all are equal."

NOTES.
J. S. Johnson is unequaled as a record breaker, but can hardly be considered a really first-class competition rider. He and "Dute" Cabanne have met eleven times in competition, Cabanne finishing ahead on seven occasions.

Bert Harding, in his 100-mile ride at the fair grounds at St. Louis on Wednesday last, made 30,215 revolutions with each pedal to cover the required distance.

A kind providence now interposes uncertain and generally disreputable weather between a patient public and the too persistent cross-country record-breaker.

Geo. N. Jordan, representing the National Cycle Mfg. Co., of Bay City, Mich., is in the city on business. He is a spectator at the record-breaking trials of the Cleveland team to-day.

Got In His Work at Keokuk.

Saturday last J. W. Plimpton, the party who did up four Decatur banks by a series of forgeries, using the name of Manager F. W. Haines, got in his work at Keokuk, Iowa. There he secured \$78 from the banks by forging the names of the opera house manager and the city attorney.

DEATH OF FRANK MEYER.

He Passed Away at an Early Hour This Morning - The Funeral.

Frank Meyer, one of the oldest German citizens of Decatur, passed away in death at 1:30 a. m. to-day (October 29) at the family home, No. 263 South Broadway, in the 65th year of his age. Mr. Meyer was afflicted with dropsy and had been in failing health for a period of five years. His death was not unexpected.

The deceased was born in the town of Dussan, Hanover, Germany, and came to America in 1848, settling in St. Louis. He came from that city to Decatur in 1849. For many years he was engaged in the manufacture of building brick, being associated with Mr. Brant the yard being located on South Broad, way at the corner of Decatur street. He prospered and became the owner of farming land and valuable city property. He was a hard-working man and a citizen of sterling integrity. He had many personal friends in the community. Mr. Meyer is survived by his widow, George W. Meyer, Frank W. Meyer and Miss Minnie Meyer.

The funeral will take place from St. Paul's German Lutheran church, on West Wood street, Wednesday, Oct. 31, at 2 p. m., Rev. Marcus Wagner officiating.

The New Devil's Auction.

The Grand opera house will throw open its doors Thursday evening, November 1st, with Chas. H. Yale's "Newest Devil's Auction," a favorite spectacle. The management promises so many changes this season that it will seem a brand new spectacle. Sixty people will be employed, including a ballet corps of twenty dancers, led by Miles. Chittton, Bartolotti and Amoro, while the specialty features will include Les Freres Caron, the Ceco Moo troupe, and the Lorella Trio. The ballet will introduce a new diversification which will include the "Midget Dancers," of which much is expected; a burlesque travesty on the trolley car, showing its trials and tribulations is one of the features which in this city will surely be appreciated. The sale of seats shows every indication of a most successful engagement.

AWFUL HOLOCAUST.

Sixteen Persons Cremated in a Seattle Hotel.

THE HOUSE A VERITABLE FIRETRAP.

From which the Victims Had Little Chance of Escape After the Fire was Once Started—Saved Her Babe—Horrible Scenes.

SEATTLE, Wash., Oct. 28.—The people of this city were horrified yesterday by a hotel holocaust which overshadowed in its fatalities the great fire of 1881, when the greater portion of the city was laid in ashes.

In the destruction of the West-street hotel by fire at least sixteen inmates lost their lives, amid all the agonies and horrors of cremation under such surroundings. The victims identified so far by shreds of unburned clothing are as follows:

F. Holman.
Amicus McDonald.
C. Wilson Anderson.
Mrs. J. W. Huffman and two daughters.
Andrew Otteson.

The building was a two-story structure of corrugated iron, occupying an entire square on the water front. It was a fire trap with a maze of passages which would confuse any person in the absence of light. The impossibility of escape from such a death-pen when flames were licking up everything within reach and suffocating smoke filled the heated air was apparent to the firemen and horrified spectators on the street below. When the department responded to the alarm the building was a mass of flames. The news quickly spread that there were half a hundred guests in the blazing trap, twenty of whom were transients.

It was half an hour after midnight when the fire apparatus came rushing to the scene of death, but the fire broke out so suddenly and with such ferocity did the flames spread to every part of the structure that a terrible panic prevailed among the inmates. Clad only in their night clothing, men and women jumped from the windows without waiting to see if the firemen could rescue them. Most of those who jumped from the second-story windows sustained no injury of a serious character. Three of those who escaped being burned alive or suffocated to death were injured by jumping, one man breaking a leg in his fall.

A frantic mother threw her baby of 1 year into the street, where a policeman caught it without harm.

W. C. E. News dropped twenty feet to the ground and picked himself up unhurt.

Joseph A. May tied the sheets and used them as a rope to let himself down in safety.

C. B. Glass waited at the window of his room until his hair was burned off. Then he jumped, his head striking the ground. He was taken with the other injured to a hospital.

The gallant firemen came upon a victim whose identity is not known, near the top of the West-street stairway. He was trapped by the rush of the flames and overcome by heat and smoke. The firemen fought hard to keep the flames back, but they were soon driven away.

E. E. Bryant, a police officer, who was the first to see the flames, turned in the alarm and then bravely rushed back to save human lives. He found Susan Allen and her little child at a window on the West-street side. The woman was crying piteously for some one to save her child. Bryant shouted for her to drop it, which she did. The officer caught the descending bit of humanity in his arms and then set a plank against the window by which the mother slid down in safety.

The proprietor of the fire box, H. F. Butler, was in bed when the flames burst into view from the street and had a narrow escape from death.

His son, S. F. Butler, who was night clerk, says the fire originated from the explosion of a kerosene lamp in the kitchen, which was located on the second floor near the lower hall. The sound of the explosion was clearly heard on the street. Butler raised the cry of fire, which aroused the guests to their danger, and to their death in many cases. Many of the victims awoke and rushing into the narrow, winding passages found themselves face to face with flames, smoke and death. Some of the dead were suffocated or burned to death in their beds, parts of their charred bodies being found in that way.

Escape by the narrow stairways was out of those who got that far, and all rushed to the only avenue of safety, the windows overlooking the street.

The body of the first victim was found in a room, with one leg in his trousers and his shoe partly laced. The head was covered with bedclothes under the bed. It was too much burned to be identified.

Not a person in the building escaped with anything except the clothes they had on them.

After two hours' hard work the firemen had the flames under control. Only the gutted hull of the hotel was left. The woodwork of the interior was almost entirely consumed, but the corrugated iron walls were left standing.

As soon as the work of searching for the dead was considered safe, thirteen bodies were quickly found in the rooms and passages, the postures and bed covering of many showing they had died in awful agony after a desperate fight against flame and smoke.

Close together in the bed of one room were found the blackened bodies of a man, his wife and child. An arm of the child was thrown carelessly over the side of the bed as if it had passed from life without being awakened to suffer.

In the corner of another chamber of

death were the bodies of a man and woman sitting erect. All the flesh had been burned off. The skulls were blackened and grinning. The stumps of the man's arms were clamped over his head as if he had died fighting the flaming foe. The arms of the woman were clasped around his waist. In the charred hand of a woman's body, found twisted and contorted in a hallway, was a bunch of hair torn from her head in the agony of suffocation. In all parts of the trap were picked up skulls and bones of those who had been living guests a few hours before.

THE SEATTLE FIRE.

The Burned Buildings Were Totally Unfit for Lodging Purposes.

SEATTLE, Wash., Oct. 29.—The coroner's jury after hearing testimony yesterday afternoon returned a verdict to the effect that the fire was caused by the explosion of a lamp. The jury also expressed its opinion that such buildings were totally unfit for lodging purposes and they recommended that proper steps be taken to prevent the recurrence of such a disaster.

CONFIRMED.

The News of a Second Victory of the Japanese Army Under Marshal Yamagata.

WASHINGTON, Oct. 28.—The Japanese legation here received today at 10:30 a. m. a dispatch which confirms the news published this morning of a second victory of the Japanese army under Marshal Yamagata. The telegram is dated from Hiroshima, and reads as follows:

"Before dawn of October 26 our army, under Marshal Yamagata, attacked Kin-Len-Cheng, one of the important strongholds upon the Chinese frontier."

"The place was defended by 16,000 Chinese troops under Generals Lin and Song. They fled after offering only a slight resistance, and the Japanese forces took possession of the fortifications and the city. They captured thirty large field guns, an immense quantity of rice, food of other kinds, etc., and more than 300 tents."

The Japanese loss was twenty killed and eighty-three wounded. The Chinese lost more than 300 killed. The exact number of their wounded is not known."

It is believed at the Japanese legation that Gen. Lin, mentioned in this dispatch, is the noted Chinese commander who played such a prominent part during the Tientsin difficulties and to whom it was recently reported Viceroy Li had offered the chief command in the Chinese army.

The official dispatches received by the Japanese legation heretofore have been found remarkably accurate and no claim to any victory has been received at the legation which has not been sustained by subsequent developments. Several alleged engagements, including the capture of the treaty port of Chee Foo and of Port Arthur commanding the great Chinese arsenal of Wei-Hai-Wei, have been rumored and almost accepted as facts; but the Japanese legation has declined to confirm them. The inference is, therefore, accepted that when they confirm news "it is so."

CONFISCATED.

The Soo Choo Property of Sheng, the Taoist of Tien-Tsin, Seized by the Government.

LONDON, Oct. 29.—The Shanghai correspondent of the Central News says: The Soo Choo property belonging to Sheng, the Taoist of Tien-Tsin, has been seized and sealed by the governor in obedience to orders from Peking. Sheng is the official who bought German rifles for \$500,000 and sold them to the government for \$300,000. When the fraud was discovered Li Hang Chang slapped his face. The seizure of his property followed quickly upon the denunciation of the board of censors.

The Chinese army of the Yalu, says the correspondent, has retreated to a well-fortified position at Feng Huang Cheng, and bars the road from Mukden to Peking. Fifteen thousand Chinese have been ordered to march from Feng Huang Cheng, make a detour and attack the advancing Japanese army on the right flank.

HOPE REVIVES.

An Encouraging Bulletin Received by the Russian Minister at Washington.

WASHINGTON, Oct. 29.—Prince Cantacuzene, the Russian minister to the United States yesterday received the following satisfactory bulletin as to the condition of the Russian emperor, from the minister of foreign affairs.

Sr. Petersburg, Oct. 28. The emperor slept well on Friday night. Yesterday the appetite was good and the function of the heart more satisfactory. General condition better. Oedema has not increased.

[Signed.]
Prince Cantacuzene feels greatly encouraged on the receipt of the telegram, which carries the story of the emperor's condition down to Saturday night. The fact that the emperor is improving, however slightly, is in itself a matter for congratulation, and encourages the hope that he may ultimately recover.

The further fact that the marriage of the crown prince and the Princess Alix has not been celebrated is regarded in diplomatic circles as additional proof that the emperor's condition is not as serious as has been reported. Had his death been imminent the wedding would have been expedited. The postponement justifies the belief that the emperor is improving and that the hope is indulged by his family that he may rally sufficiently to be present.

The Foundered Steamer.

LONDON, Oct. 29.—It is said that the steamer that foundered in the Bristol channel off Ilfracombe, was the Killy Raliffe, which carried a crew of thirty.

WAITE IN CHICAGO.

Two Speeches by the Populist Governor of Colorado.

HE IS ENTHUSIASTICALLY RECEIVED.

And Explains the Causes of All Our Woes as Due to the Incapacity or Dishonesty of the Other Fellow—How to Right Our Wrongs.

CHICAGO, Oct. 28.—Gov. Waite of Colorado arrived here at 8:10 o'clock this morning, and after making two campaign speeches for the people's party, took an evening train for Denver.

The first speech of the day made by the populist hero was delivered from the Columbus statue on the lake front this morning to a crowd of 5,000 people. Gov. Waite was enthusiastically received, and during his speech he was cheered at the least provocation. Among other things he said:

"We are in the midst of a revolution—peaceful, we hope; a revolution to be accomplished by ballots. Never before, in the history of our country, has the liberty of the people been, in such danger as it is at the present time."

The condition of the country is acknowledged by all to be deplorable. Business is dull, money is scarce, men are unemployed and the price of products is below the cost of production, and the wages for the labor of those employed are very low. For the first time in our history, there are at present between 4,000,000 and 5,000,000 men in the United States who are unemployed and cannot find work. We are told by politicians that this is the dispensation of divine providence; but I assure you it is the effect of vicious legislation, legislation which for the past thirty years, so far as congress is concerned, has been in favor of monopoly. I say that for the past thirty years there has been no legislation which has been generally conceded to be for the people. There is no difference between the two old parties. Both have done all they could to contract currency and take from the people the money that should be circulated among them, turning it into bonds for the benefit of the capitalists. But the present administration has done what Ben Harrison and his crowd would not dare do, and that is issuing \$50,000,000 of gold bonds for the purpose of putting the country where it is today—upon a gold standard."

"Everything is being done to make the people of America nothing but industrial slaves. There is only one remedy, and that is the adoption of the Omaha platform which provides for the increase of currency. [Cheers.] This platform proposes to take away from the capitalists and monopolists the right to rob the people and give all equal rights and equal privileges."

At the close of his speech, the governor was driven to the Grand Pacific, where he held an informal reception and shook hands with many of his admirers. Local politicians addressed the lake front crowd after the orator of the day had departed.

OUR BERLIN SPECIAL.

The Crisis in the German Cabinet—The Berlin Press on the Fall of Chancellor von Caprivi.

BERLIN, Oct. 29.—The columns of all the newspapers team with surmises as to the final cause of Count von Caprivi's fall. The most trustworthy explanation now at hand was published by the Hamburger Correspondent, which is known to have got its information from Dr. Hammann, of the foreign office. It is thus:

The Emperor Accepts His Chancellor's Gage.

"On Friday Count von Caprivi had an audience with the emperor to discuss the ministerial situation and the outlines of the proposed anti-socialist measures. He referred to the opposition he had encountered in the conference of federal envoys and asked the emperor to give a binding pledge that the whole government support uniformly the programme of the chancellor. The emperor said he could not promise to carry out unchanged every detail of the chancellor's proposals, the situation was so complicated that it was impossible to mark out an unalterable line of conduct. However, he himself continued to hope that the chancellor would have the desired support and would remain at his post. Caprivi stood firm. The emperor declined to promise. Some temper was displayed on both sides, although there was no quarrel. Eventually Caprivi stated that the alternative lay between the promise and his immediate resignation and the emperor accepted the resignation."

The Same Mistake Which Ended Bismarck's Career.

The Neueste Nachrichten, which was brought by its present owners to be used against the "new course" and the chancellor, persists that Caprivi called the south German envoys to the conference and strove to win their endorsement without having first consulted the emperor, and this independence precipitated his fall. The falsehood is obvious. The Nachrichten is regarded as seeking merely to attribute Caprivi's fall to the mistake which ended Bismarck's career. There was no repetition of the Windthorst incident, which in 1890 the emperor interpreted as an effort to intrigue behind his back.

Parties on Friendly Terms.

It is certain that the emperor and Caprivi parted on friendly terms. They were seen on Friday evening in the same carriage returning from the Russian embassy, where they had inquired after the czar's health.

In the chancellery the officials cling to the hope that Caprivi's retirement is not final, although when he bade good-bye to the chiefs of departments he did not allude to any prospect of returning to office. He seemed cheerful,

even relieved, and, aside from a slight bitterness, was undoubtedly glad to relinquish his uncongenial task. The Changes Incident to Caprivi's Departure.

Are expected to include the resignation of Freiherr Marschall von Bieberstein, the foreign secretary, whom the conservatives accuse of intriguing against Miquel, Eulenburg and everybody else except his personal friends. One report which holds fast among the conservatives, is that he will be succeeded by Count Philip zu Eulenburg, the poet, story teller and German ambassador in Vienna. The emperor is credited, however, with an aversion to all changes that can be avoided, as he wishes to emphasize the principle that he is the supreme force in the government and the all sufficient statesman. This he expects to accomplish by acting as if all dismissals resulted from party opposition to the personality of this or that adviser of the crown.

"If Freiherr Marschall von Bieberstein would go, it would be due to antagonism felt toward him by Miquel, the Eulenburg clan, and the agrarians, whom he handled so roughly in the debates on the Russian reciprocity treaty."

No Reason to Hope for the Better.

Eugene Richter's Freisinnige Zeitung contained a noteworthy leader Saturday evening on the reunion of the Prussian and imperial premier-ships and the probable policy of Caprivi's successor.

"There is no reason to expect any radical change for the better," says Richter, "for under Prince Bismarck, the union of the offices gave rise to much difficulty. The gravest complaints arose from the stagnation of Prussian legislation. Improvement is possible only through the creation of independent ministers who can relieve the chancellor of his universal responsibility."

An Aid to Agrarian Aspirations.

"Caprivi's departure has certainly cleared a great obstacle from the way of agrarian aspirations, but the danger of a tariff war with America over the sugar tax has come much nearer. As to the parliamentary programme, the removal of Caprivi has bettered in no respect the prospect of the new tax bills. The radicals cannot halt the advent of Prince Hohenlohe, doubting, as they do, his tact and his ability to direct the reichstag. In the reichstags of 1871 and 1873 he was merely an ornament."

Bismarck's Moderate Views.

The Hamburger Nachrichten, which speaks for Bismarck, has a moderate article without a trace of triumph over Caprivi. "It is a mistake to suppose that his fall was due to his attitude to the repressive laws," says the writer. "His fall was owing solely to his incapacity to deal with the entire situation. Social administrative action with only radicals, Poles and socialists behind him had become impossible."

The Chancellor's Regime Caused Discontent.

The old tory Kreuz Zeitung rejoices in the crisis:

"We desire to recall," it says, how the semi-official press sought to identify the emperor's policy with Caprivi's. The dismissal of Caprivi shows the emperor was convinced that the chancellor's regime caused discontent in the most influential circles and distrust among the most loyal classes of the population. Whatever changes may now impend, the conservatives will not alter their programme, but will carry it forward in the battle for religion, society, morality."

The Time for Passive Waiting is Over.

The Madgeburger Zeitung says:

"One thing is certain; the time for passive waiting is over. During the last few years the people have often felt the need of a firm hand to guide the government when, at important junctures, the growing quarrels could be silenced by only a stern command from above, and then perhaps for the moment. The days of aimlessness and uncertainty ought now to be gone. All Germans who love law and order stand behind the emperor awaiting his command."

Not Like the Iron Chancellor.

The Vossische Zeitung says:

"Caprivi was not the man to show the Count Carnarilla that refreshing rudeness often displayed by the iron chancellor. He did not seek to stand above his colleagues. It is possible that at the last he became conscious that this position was untenable and decided to withdraw."

The News in the Social Democratic Congress.

The news of Caprivi's fall reached the social democratic congress in Frankfurt just before the close of Friday's session. The crisis was felt to be a grave one, full of danger to the party. The general opinion was that it meant the signal triumph of the reaction. Deputy Paul Singer's closing address failed to encourage the delegates, although it rang with defiance of all that the imperial ministers might do. "No damages can affect the social democracy," he said. "The party has outlived Bismarck and Caprivi and will survive the future chancellors, it matters not how reactionary they may be. Socialism is the vital principle of progress. Its adherents are animated with a spirit to overcome all her acclusions and they have spread their teachings despite all opposition."

The congress closed with the appearance of harmony which was absent at the opening. There was much latent discontent, however, and the Bavarians or Berlin committeemen are sure to fight their differences out unless new exceptional laws force them back into a solid phalanx.

The Victim of a Monarch's Whims.

The Vorwarts says:

"The most notable fact is that he was not dismissed because he had lost the confidence of the nation, nor because a vote of the reichstag had made him impossible as chancellor, but merely because a monarch, regarding himself as responsible to nobody, suddenly resolved to let him go. Caprivi never used legislation or administration for his personal advantage. His withdrawal darkens the political horizon."

TELEGRAPHIC NOTES.

—Gov. Elect Atkinson of Georgia was inaugurated at Atlanta Saturday.
—On the 27th the associated banks of New York held \$68,864,900 in excess of the requirements of the 25-per-cent. rule.
—Emperor William's acceptance of Count Eulenberg's resignation both as Prussian premier and minister of the interior is officially confirmed.
—Anna Crossman Fawcett, daughter of Gen. Crossman, of New York, was granted a divorce in Chicago on a cross bill from Geo. D. Fawcett, the actor.
—The contract for constructing the approaches of the Detroit government building was awarded Saturday to Benjamin Hyde, of Chicago at \$28,438.
—The strike commission authorized to be appointed by congress has completed its labors and will, not later than the 15th of next month, send in its report to the president.
—Gen. Amos Beckwith died at his rooms in St. Louis Friday night, aged 69 years. He was taken ill with pneumonia last August, and, though better at times, never recovered from the attack.
—George Chedley, a millionaire property owner of Kansas City, Mo., was declared incapable of attending to his business by a jury in the probate court, Saturday, and a guardian was appointed for him.
—Fire destroyed the Southern railway's freight warehouse at Asheville, N. C., together with two loaded cars and four shanties. All the freight in the building and all the records were totally destroyed. Loss, \$80,000; insured.
—The Paris press agree that despite the coincidence of the czar's illness, the ministerial crisis in Germany does not imply a change in the foreign policy, which is under the effective and absolute direction of Emperor William.
—The weekly statement of the New York associated banks shows the following changes: Reserve, increase, \$1,861,235; loans, decrease, \$1,079,800; specie, decrease, \$11,300; legal tenders, increase, \$1,359,400; deposits, decrease, \$411,700; circulation, decrease, \$103,300.
—The unexpected resignation of Chancellor von Caprivi and Count zu Eulenberg has created a greater public sensation in Berlin than any event since the retirement of Prince Bismarck. All of the newspapers pay high tribute to the personal qualities of the retiring chancellor.
—The work of rescuing the entombed miners at the Pewable mine at Iron Mountain, Mich., was accomplished between 6 and 7 o'clock Saturday morning, and they were hoisted to the surface as sound as a dollar and without a mark, after having been entombed for more than forty-three hours. There was great rejoicing in the community.

SUSPECTS ARRESTED.

Indians and Dogs to be Employed to Run Down the Cook Gang.

WAGONER, I. T., Oct. 28.—The Cherokee Indian militia arrested six men at Fort Gibson, Saturday, and four at Claremore, on the charge of harboring members of the hunted Cook gang of murderers and robbers, and furnishing them with such information as they needed to elude their pursuers.
The Cherokee authorities have offered a reward of \$500 for the capture of any member of the gang, dead or alive.

The Indian nation is now practically under military law. Three hundred Indian militia and 100 deputy United States marshals are pursuing the robbers to the death. The number in the band is known to be thirty, but only ten of them are with the leader, Cook, who is believed to be in the western part of the nation. The rest of the robbers have scattered in small groups for better safety.

WHITE SCREWMEN'S STRIKE.

Though the Strike is Ended International Complications May Ensnare.

NEW ORLEANS, Oct. 28.—The trouble between the white and colored screwmen culminated in a riot on the levee, between Second and Sixth streets, yesterday morning, in which six persons are reported seriously injured.

The trouble originated in the neighborhood of the steamship Delano, lying at the head of First street, and was the outcome of an attempt to load the ship with cotton with the negro screwmen.

The police have not made any arrests. Last night the strike was settled by the ship agents agreeing to employ only white screwmen.

The British acting consul has wired to Washington and as the ships boarded were all British, the trouble assumes an international aspect.

NARROW ESCAPE

Of Occupants of Two Burned Dwellings—Supposed Incendiaries in Jail.

BELLAIRE, O., Oct. 29.—At 4 o'clock yesterday morning the residences of Joseph Galtz and John Q. Neil, located near Wheeling Creek coal works, six miles from Bellaire, were destroyed by fire. The occupants of the houses narrowly escaped death. Nathan Frost, of Bellaire, jumped from a second-story window. He was severely burned and had both arms and legs broken by his fall. John Burchin was also burned and injured. Parties who are supposed to have set fire to the buildings are now in jail at Bridgeport. The loss is \$12,000; fully insured.

A THREE HOURS' FIGHT.

The Japanese Win Another Signal Victory.

WASHINGTON, Oct. 28.—The following dispatch was received at the Japanese legation last night:
"Hiroshima, Japan. Japanese army and navy headquarters. The advance column of our first army began to cross the Yalu river October 24, and next day, after fighting over three hours, won a signal victory at Hoesan-nam. Gen. Lin Chong, the opposing army, consisting of 2,000, being utterly routed and scattered. Marshal Yamagata is at W. P."

Fall Trade

OUR fall trade is opening up in great shape. Our stock is complete in every department and prices are lower than ever before. We have not time to go into detail, but business which our store is doing is evidence sufficient to prove that the people know that we always keep what they want and that the prices are absolutely better than can be got elsewhere. We have had our store enlarged and refitted and now our facilities are in every way better than ever before to handle all the trade which can come to us. We have before remarked that we intend to have the shoe business of this city and we are getting a little more of it every day. We have the largest stock we have ever had, our styles are all new and correct, there is absolutely nothing lacking. Come and we will take pleasure in attending to every want in the line of shoes.

ON Sunday afternoon a township Sunday school convention was held in the Methodist church at Macon. The session lasted from 2:30 until 5:30, and the time was well occupied. S. M. Lutz conducted the singing, and there was a very good choir present. Short addresses were made by visiting Sunday school workers from Decatur, by C. T. Wells, of Elwin, and others. The attendance was good. J. H. Gibson presided, and he was elected township officer for the ensuing year.

THE "SCHOLAR IN POLITICS."

His Plan to Buy the Votes of the People—What It Means.

The REPUBLICAN, nearly a week ago, and several times since, has called attention to the fact that the Democratic leaders have sent a corruption fund into this county, and into this senatorial district, to be used in buying voters to vote for the Democratic ticket. There is no mistake about this. The money came in shape of a check or draft and the man who received the draft and disbursed it to the person who was to distribute it for use on election is well known. It is known what bank in St. Louis the draft was drawn against and the parties who have been designated to distribute it are also known.

This is a lamentable and disgraceful state of things that ought to be denounced by every honest man in the county and the district. It is a fearful commentary on the Democratic campaign of education and an outrageous procedure on the part of the "scholar in politics," who was nominated for United States senator because he had the financial ability and the smallness of soul to stoop low enough to attempt to buy his way into the United States senate. Such characters should be overwhelmingly defeated whenever they put up their heads.

What does this corruption fund mean? It means a well planned effort to purchase the votes of poor workmen and thus get them to vote against their own interests. There is no workingman in Decatur who would not be better off today, in case he had sold his vote in 1892 for \$100, and that vote had put the present party in power, if he had, instead, cast his vote for nothing for the Republican ticket and that vote had continued the Republican party in power with the prosperity that party gives the country. A vote for the Democratic ticket is a vote to buy goods made abroad that our wage earners should make for this market themselves, and such a vote is a vote to make and keep men idle and without means of support, and no man, no matter what he may be offered for his vote, can afford to vote for such conditions. Don't be deceived about this proposition by the falsehood that campaigners give you when saying that the Democratic policy does not mean less work and less pay. Here is the Democratic declaration of principles introduced by Senator Roger Q. Mills and adopted by a Democratic Senate and House of Representatives.

"That when taxes are imposed on imported goods the taxes should be so low as not materially to restrict importation."

This means to take away labor from American workmen and investment from American capital. It means throwing our market open to foreign goods representing foreign instead of American labor. It means closing our American mills and making tramps of our workmen. No American workman can afford to vote for such conditions for all the money depraved campaigners may offer him. Buying goods from abroad, which we should make for ourselves, not only means idleness, but it means more than that. Only last Saturday the daily papers reported three cases of suicide, where men out of employment and unable to support their families, through despondency, took their own lives, and this is a daily occurrence. One of these cases was especially pathetic. A workman, who was prosperous in 1892, under the present state of affairs, became idle and could get no work. His wife and child were sick and all were destitute. The love for his family and his inability to take care of them so preyed upon his mind that it gave way, and after taking a last look at those he loved he went into another room and shot himself.

MacVeagh is wealthy. He is an importer and wants free trade. He doesn't care how disastrously free trade may affect American workmen. He knows that, no matter how thinly clad the workmen may be, he will always have plenty of clothes; that no matter how cold they may be in winter, he will have plenty of fire; that no matter how destitute they and their families may be, he will have plenty to eat, and he proposes to buy them like cattle to vote to continue this condition of things. Though he should offer every workman \$100 for his vote, it would be a bad investment for a workman to accept the terms. Let Mr. MacVeagh perish, and let his money perish with the polls, and let the wage-earner go to the polls and vote in his own interest by voting to put out of power the party that is too un-American to protect American labor and American capital and American business; the party that has already cost the people of this country more than it can pay from a leprosy fund on election day.

Harvest Home.
The ladies of the Baptist church are sparing no pains to make a success of the Harvest Festival to be given on Thursday Nov. 1st. They will serve a hot dinner from 11 to 2 o'clock; supper from 5 to 7 p. m., and refreshments throughout the evening. A fancy and Art table under the management of Mrs. H. A. Wood, will be an interesting feature of the entertainment. The place for holding the festival will be announced in to-morrow's papers.

County Again.
In the county court a jury and Judge Nelson will be tied up this week for several days, hearing evidence and arguments in the trial for the opening of East Decatur street from South Main east to the alley half a block. The case has been in court before. The amount of damages is to be determined. J. M. Lee appears for the city, and A. G. Webber and I. A. Buckingham for the defendants.

Cullom in the State.
Senator Cullom addressed a series of large and successful Republican meetings during the past week and spent Sunday at home in Springfield. His appointments for this week are as follows: Mattoon, Monday afternoon; Decatur, Monday evening; Mount Vernon, Tuesday afternoon; Kankakee, Wednesday evening; Aurora, Thursday evening; Chicago, Friday evening, Saturday evening and Monday evening.

The funeral of the late Charles Cyphers, a tailor, was conducted Sunday under the direction of the Tailors' Union. Goodman's Band was in the cortege, as were also members of the O'Gara's and other unions. The burial was in Greenwood. The services were conducted by Rev. D. F. Hoge, and members of the Tailors' Union were the pallbearers.

Kanan for Senator.

M. F. Kanan, the Republican nominee for state senator, is well known to a majority of the people of this senatorial district, and he has the reputation, and justly, too, of being one of the best business men in Decatur. He is not only a good business man, but applies his ability in the interests of the people whenever he holds an office of public trust. He is also well known as a gentleman who does what he thinks is right under all circumstances, and a man of that character is the kind of man the people of this district need to represent them in the state senate. It will pay them to send such a man to the senate—a man who is true to the people under all circumstances—a man who has convictions and the courage to assert his convictions. Kanan has been tried. When the country needed the service and lives of men to protect it, he was among those who thought they owed the country whatever it might demand; and he served his country through its peril, and never claimed any special privileges because he did it, but quietly and modestly settled down with the common people in the business of life. No man has broader or more comprehensive views of what is best along the line of such legislation as the people need. This quality he has developed in the discussion of the important questions before the people and as a city official. These facts, coupled with his quality for independence, makes him a most desirable man to elect to the state senate, where men of good judgment are needed; and the people will make no mistake in sending M. F. Kanan to the legislature; and the people will see that the corruption fund sent into the district to defeat him does not compass the object for which it was sent.

Every voter who did not attend to registration a week ago Tuesday should look after it to-morrow (Tuesday). It will be the last day to register and it may save annoyance to the voters on election day.

HEAR Senator Cullom, Mrs. Worthington and W. G. Cochran to-night at the tabernacle.

Wily Webber.
A. G. Webber, the local Democratic wire puller, who loves Altgeld because he gave Papa Roth a \$1,500 job, having lost his grip with the fifth ward voters, is now trying to influence the colored voters. He is not meeting with brilliant success. He gave himself away badly Friday when in a persuasive talk with a colored man he gave utterance to the same language found in the insulting circular letters sent to the colored voters of the city through the postoffice on Saturday. Webber was able to fool some of the German voters in 1892. They are onto him now, after two years of experience, and the colored voters cannot be bamboozled by the Democrats at any stage of the game. They all stand pat for the Republican ticket. Webber is simply wasting his energy.

Every voter who did not attend to registration a week ago Tuesday should look after it to-morrow (Tuesday). It will be the last day to register and it may save annoyance to the voters on election day.

RALLY TO-NIGHT.

Republicans Will Give Senator Cullom a Big Welcome at the Tabernacle.

Turn Out and Hear the True Political Gospel—Mrs. Worthington and Mr. Cullom Will Speak

Senator Cullom will arrive in the city this evening from Mattoon to address the Republican rally to-night at the tabernacle. He was at Mattoon and addressed the big crowd which saw and heard Major McKinley. Mr. Cochran will come in on the train with Mr. Cullom. Mrs. Worthington, who is to be at the meeting to discuss the tariff question, arrived in the city this morning from Stirling. The ladies generally should be present to hear Mrs. Worthington and the other speakers.

In case the tabernacle will not hold the people there will be speaking outside by one or more of the speakers.

The band and the drum corps will be out for escort duty.
